

# CHERRY JUICE

September, 1975

Vol. II, No. 9

Cherryland ARC, Traverse City, Michigan

\*\*\*\*\*  
SEPTEMBER, 1975 MEETING - Cherryland ARC will meet on Tuesday, September 23, 1975 at NWMC Technical Center, Room 121 at 7:30 PM. The Technical Center is located across from McDonalds, & we are requested to use the front parking lot. This is the same lot that Grand Traverse Mortgage uses. We will hold elections for the coming year for all offices except President. We still need a person, or better yet, persons who would be willing to take this responsibility. It would be nice to have several candidates, & give a choice. At any rate, we did not receive exactly overwhelming support when we asked members to serve. Our heartfelt thanks go to those who did accept the challenge. Thanks also go to those that served this pass year, and especially those who served in the past and volunteered their time and services again! Plans will be made for this coming year's activities also. Please bear in mind that you as a member, may run for any office in the club, and that the slate the Nominating Committee devised is only composed of those individuals who stated their desires to serve as they were contacted by the Committee. You may nominate yourself, or anyone from the floor. Please be there, cast your votes, or forever hold your peace!

Edna Widman asked me to remind everyone of the Mineral Club Show, and passed along that John and Edna are recovering nicely from their recent illnesses. You will find nice flyer sheets enclosed with this issue of CJ directing you to the Mineral Show.

Jack Leishman K8YZW informs me that he has a new SB-104 Setup. Hope you enjoy it very much, Jack! I know I sure would like to have a new SB-104!

Ducky, W8CJT has a new Kenwood Transceiver. I heard Clyde W8STH straightening Ducky and Uncle Vic W8KPO out as they compared notes on their new rigs, a few Sundays ago! Ducky seems to have too many "highs" in his voice, and Unc Vic has too many "Lows". It seems as though you two dudes could get your stuff together, and make two perfect voices. I'm sure glad my voice is perfect!

Wells Chapin W8GI has enough telescoping aluminum tubing to construct two 40M verticals for sale. He says he'll take fifty dollars for the whole mess. You can call him in Kingsley at 263-5411.

Bill Martinek W8JUY is leaving on September 27, 1975 for a two week vacation in the Barbados Islands. He will be receiving Ham-call from there, and is taking his FT-101B along. Doug DeMaw W1CER will accompany Bill again this year.

I lost my feedline again this past week on my 160M Centerfed Zepp. It should be repaired again as you read this newsheet. If that darn antenna didn't work so nicely, I would take it down for good this time!

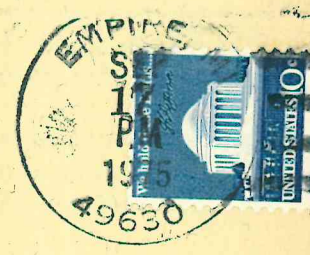

I have many, many QST, CQ, and 73 Magazines that need a new, loving home. They date back to 1955, or so, and the condition ranges from poor to fantastic. If you would like some, please call me at 326-2851. P.S. the price is right to the right home!

Well, this will be my last issue of CJ, and my last month as President of CARC! I wish to thank all of you that have so unselfishly given of their time and effort to make this past two years perk along as it has. We've had a lot of fun together, and I'm sure there is a great deal in store for us in the future. Please give the new slate of officers as good support as you have given us! Thanks!
